

SHIV SANTOSH SARWADE

Software Engineer

+91-7620876612 shiv.s.sarwade@gmail.com linkedin.com/in/shiv-sarwade github.com/ShivSarwade

Summary

Software Engineer with hands-on experience building scalable full-stack applications and backend systems using Node.js, React.js, PostgreSQL, and MongoDB. Skilled in API development, authentication systems, database optimization, cloud deployment, and performance-focused application development. Experienced in designing secure software solutions, improving system reliability, and working across complete software development lifecycles in agile engineering environments.

Skills

Languages & Core CS: JavaScript (ES6+), Python, Java, SQL, Data Structures & Algorithms, Object-Oriented Programming, System Design

Backend Engineering: Node.js, Express.js, REST APIs, Authentication, JWT, RBAC, API Design

Frontend Technologies: React.js, Next.js, Redux Toolkit, React Native, Tailwind CSS, HTML5, CSS3

Databases & Cloud: PostgreSQL, MongoDB, AWS (EC2, S3), Redis, Nginx

Tools & Methodologies: Git, Linux, Docker, Postman, CI/CD, Agile/Scrum, SDLC, Debugging

Experience

Software Development Engineer

May 2025 – Present

Sitramix, Pune

Tools Used: Node.js, Express.js, React.js, Next.js, MongoDB, PostgreSQL, AWS, Docker

- Developed scalable full-stack features across frontend, backend, database, and deployment workflows.
- Designed and optimized 20+ secure RESTful API endpoints, reducing API response time by 40% through caching and payload optimization.
- Optimized PostgreSQL and MongoDB queries, improving execution latency and resource utilization for high-traffic workflows.
- Leveraged React.js and Next.js to reduce unnecessary component re-renders by 35% through state optimization and memoization.
- Implemented asynchronous backend services with robust error handling to improve reliability and request processing efficiency.
- Managed AWS EC2 deployments, configured Nginx reverse proxies, and resolved production bottlenecks to ensure 99.9% uptime.

Projects

Griffion – Identity & Authentication Service | Node.js, React.js, MongoDB, Redis

- Developed a modular authentication microservice featuring JWT rotation, refresh token mechanisms, and secure session management.
- Optimized MongoDB database schemas and implemented caching strategies to minimize query overhead and improve authorization latency by 30%.
- Built robust backend REST APIs and secure frontend workflows with protected routing, accelerating time-to-market for new internal tools.

JobJet – Full-Stack Job Portal | Python, React.js, Node.js, PostgreSQL

- Engineered a scalable job-matching engine using Python with optimized string search and sorting algorithms for handling large datasets.
- Designed a responsive, component-driven frontend architecture using React.js and Tailwind CSS for seamless recruiter-candidate interactions.
- Created backend REST APIs using Node.js for application tracking, secure file uploads (resumes), and user profile management.

TICKETIFY – Event Management System | React Native, Node.js, MongoDB

- Engineered a highly available backend for a cross-platform event application, supporting high-concurrency ticket booking and real-time attendee synchronization.
- Implemented secure QR-based ticket validation and developed REST APIs to ensure reliable, low-latency event check-in operations under heavy load.

Awards & Certifications

- Secured 1st Rank in college during Bachelor's degree graduation (BBA-CA / BCA) with a CGPA of 9.60/10 (Grade: O).

Education

Master of Computer Applications (MCA)

External, Expected: June 2027

Savitribai Phule Pune University (SPPU)

CGPA: 8.96

Bachelor of Business Administration in Computer Applications (BBA-CA / BCA)

Graduated: 2025

Savitribai Phule Pune University (SPPU)

CGPA: 9.60 / 10

12th Class Higher Secondary Certification (H.S.C.)

2021 – 2022

A.S.D.B. Dadawala Junior College

Percentage: 87.50%

10th Class Secondary School Certification (S.S.C.)

2019 – 2020

V.P.S. Sheth Hiralal Saraf Prashala (S.H.S.P.)

Percentage: 88.20%
