

Omniscient Internships - 2027

We are looking for Interns to work with us in their Industrial Training Semester.

Company Profile

We (Omniscient) are an established Fintech Company with 19+ years of experience in the Treasury & Cash Management Domain. Our products connect both ends of the Financial Supply Chain.

- On one end, we help large Banking & Financial Service Providers with our Firestart® Product to connect digitally with 1000's of Corporate Customers Globally.
- At the other end, we help some of the largest Corporates in emerging markets with our Liquidice® Product to connect and exchange data with 100's of banks globally, to monitor and manage their cash, cash-forecasts and liquidity across 1000's of bank accounts across various currencies and businesses.

Our Firestart® customers include some of the largest Banking and Financial Service Providers in India and other emerging markets across Asia. Our Liquidice® customers include some of the Largest Corporates across Asia, with more than half of the Top-100 corporates in India managing billions of rupees of cash, liquidity and investments daily on their Liquidice®. Liquidice® provides these customers with out-of-the-box connectivity to over 350+ Bank Globally and provides them a single, seamless multi-banking experience across all their local, regional, and global businesses.

Duration: Internship for 6 months, may convert into a permanent position during or at the end of the internship, depending on the performance evaluation.
