

# ATHARVA SURAJ SONAWANE

## Full Stack Developer

**Phone:** +91-8378040415  
**Email:** atharva.sonwane04@gmail.com  
**Links & Profiles:**  
Github

### Technical Skills

**Skilled:**  
HTML, CSS, JavaScript, React.js, Tailwind CSS, Node.js, Express.js, REST API Design, PostgreSQL, MongoDB, Git, UI/UX

**Intermediate:**  
Kotlin, Flutter, JWT Authentication, RBAC, Redux Toolkit, React Router, Vite

**Basic:**  
Golang, AWS (EC2, S3), Linux, Postman, CI/CD, Agile (Scrum, Jira), Async Processing, Non-blocking I/O

### Projects

#### MUSEBEAT - MUSIC APP

- Developed MuseBeat, a feature-rich music streaming Android application inspired by Spotify.
- Integrated ExoPlayer for seamless, high-quality audio playback.
- Followed MVVM architecture using ViewModel, LiveData, and Repository for clean code and scalability.
- Designed a modern, user-friendly UI using Material Design principles.

#### SkillSync

- Built SkillSync, a web-based internship recommendation platform that matches students to relevant opportunities using a skill-based intelligent matching algorithm.
- Designed a verified student profiling system with admin validation to ensure authenticity and improve the quality of internship recommendations.
- Developed a decision-support system for first-time internship seekers, simplifying discovery and reducing mismatched applications through personalized recommendations.

#### JOBJET

- Developed a full-stack job portal using React.js, Node.js, Express.js, and JWT authentication for secure user sessions.
- Designed a responsive UI with Tailwind CSS and optimized file uploads with Multer.
- Improved page load times by 40% and reduced development time by 50% with the chosen tech stack.
- Enhanced performance by minimizing error rates and speeding up form validation for a smoother user experience.

### Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                          |
